Jesus Can Help You

Capo 4

**G D**

I wasn't there when it happened

**Em C**

But I have read it in a very good book

**G D**

And I believe that it happened

**Em C**

So grab a Bible and we'll take a look

**G D**

Jesus and his friends went out on a lake

**Em C**

And Jesus told them, "I am gonna take a little nap

**G D**

So steer now, it'll be ok"

**Em C**

When a storm came suddenly, they woke him up to say

**G D**

They said, "Master, master, we are gonna drown"

**Em**

When he woke up, woke up

**C**

All he had to say was,

**G**

"Calm down, calm down"

**D**

And down came the water

**Em C**

"Have faith, have faith, sons and daughters"

**G**

Cause he can help you

**D**

He can calm the water

**G D**

He can stop the storm and he can help you out

**G**

He can help you

**D**

He can calm the water

**G D G**

He can stop the storm and he can help you out

**C G**

He can help you though you think you've got it

**C G D**

And you don't need anybody else

**G D**

Let him help you, let him calm the water

**G D G**

Let him stop the storm, cause he can help you out

Here's the moral to the story:

There doesn't have to be a storm at bay

Jesus helps in the little and the big

Jesus helps you every single day

When you say, "I could use a little bit of help here"

That's when you'll hear him say, "I'm here, I'm here -

No fear, no fear, sons and daughters

"I'm here, I'm here - no fear, no fear, sons and daughters."

Cause he can help you

He can calm the water

He can stop the storm and he can help you out

He can help you

He can calm the water

He can stop the storm and he can help you out

He can help you though you think you've got it

And you don't need anybody else

Let him help you, let him calm the water

Let him stop the storm, cause he can help you out
