

Long Long Trip [G,]

Copyright

Long Long Trip

VERSE

G

If you knew God's story

C G

And believed with all your heart

C G

That he'd announce a brand new king

D

With a fireworks display

G

If the star would shine so bright

C G

And beckoned you to come

D

Would you pack up your suitcase

G

And head out on that day?

CHORUS

C G

It's gonna be a long, long trip

D G

No telling where this journey ends

C G D

On a camel anywhere you go feels far

C G

It's gonna be a long, long trip

D Em

Good thing you're traveling with your friends

C D G

And a shepherd king waits under that great star

VERSE

Knowing that you'd leave behind

Familiar places in your life

And risking all your credibility

They might say you've lost your marbles

Say that you're a fool

Would you be brave and live what you believe?

It's gonna be a long, long trip

No telling where this journey ends

On a camel anywhere you go feels far

It's gonna be a long, long trip

Good thing you're traveling with your friends

And a shepherd king waits under that great star

VERSE

Long Long Trip [G,]

Copyright

When you arrive in Bethlehem
To find a baby king
He might not be the king you thought you'd see
But you've believed along the way
That God's master plan was true
He's made a perfect way to set his people free

(Modified **CHORUS**)

It's gonna be a long long trip
No telling where this journey ends
His kingdom is revealed to all who seek
It's gonna be a long long trip
Good thing you're traveling with your friends
The king that you had searched for is here to rescue all
It's gonna be a long long trip
No telling where this journey ends
His kingdom is revealed to all who seek

It's gonna be a long long trip
Good thing you're traveling with your friends
The king that you had searched for is here to rescue all
The king that you had searched for is here to rescue all
The king that you had searched for is here to rescue all
